Messrs. A. M. Bininger & Co.

Gentlemen: —I purchased, as you requested, a bottle of your "Old London Dock Gin," as sold in the stores of this city, and have made chemical analysis of this sample. It contains 42 per cent. of absolute alcohol, with odor and flavor of Junipemberries only.

On evaporation to entire dryness, this Gin is found to contain 1 42 100 ounces of saccharine matter per gallon, and this residual matter contained nothing else.

There is no adulterating ingredients or injurious matter of any kind in this Gin, and it contains the intrinsic merits of a pure article.

In my opinion, the Liquors sold by A. M. Bininger & Co., No. 19, Broad street, New York, are unsurpassed in purity and reliability. I have no hesitation in recommending them in all cases where alcoholic stimulants are required.

NATHANIEL HARRIS, M. D.

The House of A. M. BININGER & CO., 19 Broad Street, New York, have furnished quite a large proportion of the Liquors and Wines sold by the Town Agents in this County for the past year, and the Liquors and Wines so furnished have been pure and unadulterated and have given good satisfaction. In accordance with the Laws in relation there o, I would recommend said House to all who de sire a PURE article for Medicinal, Mechanical, or Chemical purposes.

WHEREAS my wife, Delia E. Gillett, has left my bed and board without just cause or provecation, this is to forbid all persons harboring or trusting her on my account, as I shall pay no debts of her contracting after this date.

ABEL M. GILLETT, Jr. Gaw291*

It is worthy of remark, that this venerable House have made a speciality of supplying the wants of Druggists, Physicians, and Town Agents with their pure and wholestone in the supplying the wants of Druggists, as one liquors, and the fact that their list of customers embraces over four thousand Druggists, is conclusive evidence of their popularity with that respectable class of treaders.

THIS is to certify that I have this day given my son. If this popular House was of recent date, and it was deemed expedient to extend its reputation by any display of public recommendation, it would be no difficult task to arrange in the most imposing forms, thousands of endors pay any debts of his contracting after this date.

From the point of it first existence, more than eighty years ago, down to the present day, this establishment has maintained its well-earned reputation, the integrity of its financial obligations remain yet untarnished, and the fidelity and promptitupe with which its numerous supporters have been served, furnish the best evidence that it has suffered no dimunition, and that the quality of its staple articles have in no way been permitted to degenerate. If these considerations can be resolved into undeniable facts by that public which they have so long served, it will furnish for them sufficient encouragement to adopt as the future "coat of arms" the insignia of their native State—" Excelsior!"—" Still higher."

THE ONLY DISCOVERY WORTHY OF ANY CONFIDENCE FOR

Restoring

THE BALD AND GRAY

Many, since the great discovery of Prof. Wood, have attempted not only to imitate his restorative, but profess to have discovered something that would produce results identical; but they have all come and gone, being carried away by the wonderful results of Prof. Wood's preparation, and have been forced to leave the field to its resistics sway. Read the following:

— Bath, Maine, April 18th 1859.

Prof O. J. Wood &Co. Gents: The letter I wrote you in 1856. concerning your valuable Hair Restorative, and which you have published in this vicinity and elsewhere, has given rise to numerous inquiries touching the facts in the case. The inquiries are, first, is it a fact of my habitation and name, as stated in the communication; second, is it true of all therein contained; third does my hair still continue to be in good order and of natural color? To all I can and will arswer invariably yes. My hair is even better than in any stage of my life for forty years past, more soft thrifty and better colored; the same is true of my whiskers, and the only cause why it is not generally true is that the substance is wrshed off by frequent ablution of the face, when if care were used by wiping the face, in close connection with the whiskers, the same result will follow as the hair. I have been in the receipt of a great number of letters from all onts of New England. follow as the hair. I have been in the receipt of a great number of letters from all parts of New England, asking me if my hair still continues to be good; as there is so much fraud in the manufacture and sail of various compounds as we'l as this, it has no doubt been asking me if my hair still continues to be good; as there is so much fraud in the manufacture and sail of various compounds as we'l as this, it has no doubt been basely imitated and been used, not only without any good but to absolue injury. I have not used any of your Restonative of any account for some months, and yet my hair is as good as ever, and hundreds have examined it with surprise, as I am now 61 years old and not a gray hair in my head or on my face; and to prove this fact. I send you a lock of my hair, taken off the past week. I received your favor of two quart bottles isst Summer for which I am very grateful: I gave it to my friends and thereby induced them to try it, many were skepticle until after trial, and then purchased and used it with universal success. I will ask as a favor, that you send me a test by which I can discover fraud in the Restorative, sold by many. I fear without authority from you. A pure article will insure success and I believe where good effects, do not follow the failure is caused by the impure article which curses the ininventor of the good. I deem it my duty as heretofore to keep you apprised of continued flect on my hair, as I assure all who enquired my unshaken opinion of its valuable results. I remain, dear sir, yours.
